

FOR IMMEDIATE RELEASE

HF Planners Celebrates Interior Designer Thao [Last Name] for Recent Milestones and Contributions

Branchburg, NJ – May 2025 — HF Planners, LLC is proud to recognize Interior Designer Thao Khia for her growing contributions to the firm and her recent achievement of becoming a LEED Green Associate. Thao's unique background in both interior design and architecture continues to elevate the creative and technical capabilities of the HF Planners team.

A graduate of Virginia Commonwealth University with a Bachelor's in Interior Design and a minor in Craft Material Studies, Thao went on to earn her Master of Architecture from the New Jersey Institute of Technology in 2023. Her education has empowered her with a holistic view of the built environment—combining artistic creativity with a deep understanding of construction, building systems, and regulatory requirements.

"We're proud to congratulate Thao on earning her LEED Green Associate Credential. Her dedication to sustainable design and thoughtful research strengthens our team's ability to deliver environmentally responsible solutions to our customers." said Caroline Shelly, Principal of HF Planners. "Her passion for design is matched by her commitment to innovation and sustainability. We're thrilled to see her continuing to grow within the firm."

The recent addition of her LEED Green Associate credential further reinforces Thao's dedication to sustainable design practices—an essential value in HF Planners' approach to workplace transformation.

When she's not supporting a range of client initiatives in the studio, Thao can often be found exploring new recipes in the kitchen or piecing together complex LEGO sets—drawn to how individual components unite to form something greater, much like her work in design.
